Help your students Study...
the right way...

There are many reasons why students do poorly on tests, quizzes, essays and in classes. One of the main reasons is that they often do not know how to study.

The attached Study Skills checklist is a way for your students to find out about their own study habits and attitudes. Once they have completed the inventory, they can see what area to focus on when studying.

If you or any of your students need help with strategies in the areas identified, please do not hesitate to contact me, I would be glad to sit down and help!
