

SOCCER STUDY GUIDE

Objective - Once one team gets control of the ball, they try to score a goal in the net of the opposite team.

Start of the Game - One team has the kickoff at the beginning of the game. The opposing team has the kickoff at halftime. Kickoff must be an indirect kick.

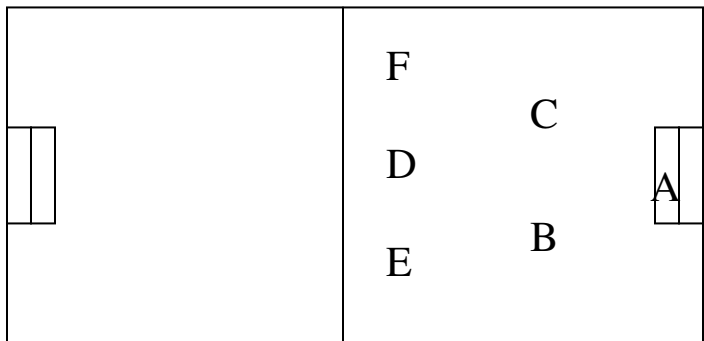

Positions

Center (C) May go anywhere on the field (except the goal box), and try to score a goal or defend his/her goal. One center per team.

Wings (RW) (LW) May only go on their offensive side of the field while trying to score.

Defenders (RD) (LD) Two defensive players per team. They can only stay on their defensive side of the centerline and try to keep the other team from scoring.

Goalie (G) The only player allowed in the goalie box. The goalie needs to try and stay in front of the net and not let the ball go into the goal by blocking it with his/her entire body. The goalie may leave the goalie box and play only on his/her defenders end of the floor, but loses hand privileges when doing so.
