

Team 6 Green

September 11, 2009

Mr. Daniele's Social Studies:

Hello Team 6 Green! Thanks for all the parents who came to curriculum night, it was great to meet all of you! Also, a very big thank you to all of my E Period parents who helped out with our "Cooking Around the World" project, it was such a great success and the kids had a lot of fun with it. We are also finishing up our map skills and Geography this coming week so we will be starting our first unit that covers Cave People and Early Man very soon. Thanks again for all of your help and have a great weekend!

Mrs. Lindstrand's Language Arts:

It was wonderful to meet all of you Thursday evening for Curriculum Night! This week we were introduced to Mrs. Askland, who is T.R.'s Media Specialist. She gave us so much information about the use of the Media Center!. We have finished our *Brown Bag it*, also. We're working on Acrostic Poems and practicing D.E.A.R. reading! This has been a **Great** week!

Mrs. McCarthy's Math:

We have been working on graphing. Today we finished our packets that included a frequency table, a bar graph, a circle graph, and the four measures of central tendency. Next week we will continue with graphing and take our first quiz. My accel class has been working with integers and coordinate planes. We graphed some pictures. Next week we will start exponents, square roots, and scientific notation.

Mrs. Ranallo's Language Arts:

This week in Accel. L/Arts, we are finishing up the first unit of vocabulary with an assessment on 9/18. We are working on the strategies of connecting with our read aloud So B It, and with short story selections. We also will be working on how to correctly format and answer questions.

This week in L/Arts, we are finishing up the first unit of vocabulary with an assessment on 9/18. We are working on the strategies of questioning and visualizing with our read aloud So B It, and with short story selections.

Mrs. Smith's Science:

We are beginning our first Science Outcome with freshwater sources. Students will receive a What to Know at the start of each new outcome to use as a study guide for our outcome assessments.

We have been discussing water distribution and will move onto our first freshwater source, Rivers, where students will take a trip through a river system.

Mrs. Walsh's Math:

This week we continued to work on Outcome I, which deals with graphing. We will continue working with graphs, mean, median, and mode for the next few weeks. Keep working on your multiplication facts!!

Other Team News:

Please Note:

Students must bring their agenda books home each night and bring them back to school the following day with a signature. Students are responsible for writing in all assignments. This is a great way to keep the communication lines open between home and school. Thank you!
